

Conquering Child Publishing Co.

You know were you are.

And know now were I AM

We shall this year be in closer contact... As I & my soul mate have been installed as care-takers to the local Druids # I2I here in Santa Rosa, and it will be from here that I shall now be able to (without any doubt) complete my work here on this planet of no-return...

I do pray that you will be able to communicate with me on a more regular schedule... As I AM going to have many strange and wonder-full things to share with all of the brothers&sisters ... I have now through the use of HIGH magick been able to drop back in so to speak, and take my place in this community, a place that I have been for-ever but there were to few who were able to see ME, as I was for the most part invisible...Now I AM painted blue..

You see my friends , I AM as I said earlier on in our relationship an ALIEN ... And I have been civily dead for the past ten years and in that TIME, I have written what appears at first light to be non-sense...

But let me say this , All that I have written has been so filled with truth that all who read the pages that I have given them say that the emagination has gone MAD...Well what better way to operate on a planet such as this ? I ask you, can you think of a better way to live than off this planet???

Remember now IT takes longer for you to read this than IT does for me to write IT ,you see all I do is sit here and talk and the symbols appear on the blank page ... The zaniest thing that I have done in the last seven years was to shave off my beautifull long beard and cut my hair ,ohh how I loved the hair that I grew at tic tac ,,Oh my I guess I had best stop for a while and see were I AM in this TIME period...

I have just completed a book that I have titeled

"THE LORD OF THE ELEMENTS"  
AS PRESENTED TO MY CONSCIOUSNESS

BY GOD

Page 2 of my letter to Bate Cabal, a person that I feel very close to , and a friend who I would pray is listening to what I AM saying ...As this will be my last incarnation in this form... As I will at a given TIME , and I have been told when that TIME will be , so IT will be important for me to have a place to leave the best of the works of Rorrim, as when I AM gone it will be important for some one to hear the words as they came to me in this period of a life so filled with the awe-some details of death in the here after... My goodness as I glance back at what I AM writting , I can see why no one can understand what I AM saying ...You see I have made it--I am back to birth and now I will never die again but I will be passing through the portals of Gods greater place than were I AM now found to be going MAD...There will be a reporter here soon to interview me , He shall be surprised as I AM the one that HE interviewed on the series that he did on his search for who ever was a witch ...He wrote me up as well as he could , I dont remember if I sent you copies of the story that was in the local papers ...It was detailed as I wanted it to be and there was even pictures off the VOODOO dolls that have been collected over the past eons ...If you want to see them I AM certain that IT can be arrainged...

I will at the ebb of the day include my phone number and address , and perhaps some erie evening when you feel my presense, then you can pick up your phone and call me and say hello I hear you but I dont believe that this is all happening , opps I AM getting my other thoughts in, I fore-get some TIMES t hat I AM writting a letter to some one and kind of get carried away -perhaps lost?

Lost? No I AM not lost , I AM only looking to find the lost ending to a story that I wanted to write in the summer of 06 , but alas I was not able to remember back into my own childhood for the code of west that I was told could be the way for modern man to find some kind of period, comma --Dank and dark was the night as the Druids met inside of the Temple that I AM to take care of ...

You see last evening was the night that they called for Phil lip Morris and the first one to arrive was a lady who in one hand she carried

Page 3 Of how many I know not ...My wife says I talk to much...Perhaps shhe is right ...But I told her that if there was no one listening it didnt matter... And that as soon as I knew for certain that someone was listening , then I would talk less and say more ...With this she said oh now I understand the venting that you do in the periods of solitude ...

Any how Bate , this first lady that entered the hall was in one hand carryng a bottle with heart pills and VALIUM , and sticking out of her red ruby lips was a extra long cigarette --and low and behold in her other hand she had a drink of Scotch and soda ,,And she began to describe her symtoms of how this pain ran down her left arm and then it seemed to traverse along to her back and her chest she said tightened up...At this I interrupted her and said Marge why dont you just stop that smoking and drinking for a while and learn how to stop all of this messy antic pains that are in fact killing your physical body...And with this she answered very sad like that she was loneley and that her husband had several girl friends and that she just didnt care if she died or not...well Ill tell you this I at that time decided that it was my time to tell her what to do and I took her drink away from her and asked her to put out the butt...She did all offthis and said that she would try real hard to heal her-self well we wall she if we can help her in her withdrawal from depression? Now all of this is true and as I read it I say no one is interested in old Marges problem --not even Marge is really interested in it ..B ut I will (EGOize the situation and do what I feel is right Nothing.....

Any how now that I AM near the end of the page I had best give to you my address. Just in case you would like to communicate and hear some things.. Rorrin/ LEO but I AM CANCER in fact I AM moon Child by birth of.....
