

ALLAH = 67, womb of the mother containing the twins.

PAN = 131, physical envelope of the multidimensional universe which contains all being (Nuit) & all action (Hadit). (the twins?)

Allah + Nogah (64), sphere of Venus (Astarte) = 131, PAN
PANNH (186) = 2 x 93; 1+8+6=15

LA IL LA HA EL IL LA HU (the ziker) adds to 225 = 15^2
225 = $93^\circ + 132^\circ$; 132 = PAN + the kolel

225 = PANNH + 39, IHVH AChAD (the Eternal is ONE)

132 (PAN+kolel) = Allah + 65; 65=LXV \rightarrow LVX \rightarrow LUX = 126

Allah + 126 = 193 = Thelema + 10^2 , Malkuth in extension.

LUX \rightarrow AUR = 207

Allah + 207 = 274, Paths (the Path to Allah is in the Light)
2+7+4=13, AChAD

274 + 186 = 460, ~~IHVH~~ QDSh L IHVH (Holy unto the Eternal)

460 = $93^\circ + 367$ (the homonucleus), the newborn person potential within me.

Allah + OTz PTN + PAN = 888, Jesus the Christ, symbol of the opened heart chakra!

8+8+8=24; 2+4=6, Tiphareth.

© pvn 1987

888 = 360° + 528°, sum of 1 to 32, = 10 sephira + 22 Paths
528° = 360° + 168°, the supernal parents
168° = 93° + 75°, Layla & Nuit.

The first half of the ziker (There is no God), La Il La
Ha, ~~xxxxxxx~~ may be treated by notaquarion to form
the word LILH, Layla, night = 75

The whole ziker may be broken down (for my purposes)
to mean La Il La Ha (There is NO-GOD; God is not;
God is Nuit) El (but, a boundery condition)
Il La Hu (Il+La =71, image of nothingness & silence
which is a fulfillment of aspiration, Hu=11, magic)
There is no God, but Magic

Naught (nothing, night, blackness) exists save by the
grace of aspirational magic.

I need more rough work before I can make any more sense
out of ~~the~~ what I am doing. That last paragraph was
thought into the typewriter & needs more polish, especially
since the ziker can also be used as La Illaha El Il Allah
(which adds to 250) or La Illaha Ill' 'LLAH (which
adds to either 244 or 246, depending on whether or not
the apostrophies are counted as alephs).

Suffice to say, I have found enough positive cor-
relations to (temporarily) assume that the Sufi 'idea'
of Allah is enough of an all encompassing 'idea' (rather
than just another person named God) that I am able to
utilize their song & dance worship as a cornerstone for
Astarte.
