Dear friend and editor,

Are we still in contact? Hello Hello, are we still going to be able to communicate? If so- On what wave nerve?

Not being one who can use a few words to say any-thing, I feel that if one has a sheet of paper --one should put as many ideas and lies , as one needs to surround the true meaning of MAGICK with as much mis-direction as is possible: OUT

One mans erection, can be another humans ejaculation, and that means that all orgasms are felt in the central drain...

This means that if communication is failing, then we as men of MAGICK continue our work in spite of our-selves and because there is something that drives me as a mere-MAN to seek purrfection...

There has been a lot happening here in the occult community of Sonoma county, and if I AM correct in my visions, there is soon to be an upsurge in this erea of ours...

I would like to have a place to communicate the incoming messages , but alas, I have been incapsulated in this form and I AM un-able to at this TIME even leave this box that I have been in for the past eleven and one half months...

The last transmission from you was incouaging, but then nothing for so long so long huh...Your letter was received with much gladness in the company...

I have sent you several letters since this TIME , and do not even know if they were received...Answer me one more TIME, and if we can , let us remain as the best of friends...

I AM not the greatest writer in the world, but for a man trapped in his own head I do as well as I AM able...

Did you see the latest pictures and news paper articles that I sent you?? I had promised my-self , that I would not carry on to much, as I AM certain that you perhaps do not receive all that I send to you...

In fact , I AM uncertain that you are receiving this in the true spirit that I intend to transmit...

Page 2

I AM writting this in the TIME of the 5th sunday of LENT and I AM filled with a PASSION that astounds my senses...

The day is not to be spent in care-less rituals , it will be a day spent here in Santa Rosa when we shall do all that is needed to insure a good TIME for the children in our very select group of humans who want to remain as free men and women, who fear not the reprisals of the ones who so deem that there is no Santa Claus...Now that is a horrible thing , for the children of earth , to find that there is no Santa Claus , that he to is but a myth...

I do know that a lot of the crazy things that I write, are but a very clumsy attempt at plagerisim--but what the hey, isnt that what this is all about?

To be able to pass on the primitive message as it was intended, that we as strange folk have learned of entities, that before now were but mere words in paper bound books filled with all kinds of strange things designed to stirr and confuse the ones who buy books for thrills....Well I would say that some of what I have thus far written--written I might say without the aid of spirits that have passed on to that place were we are all going to meet...The great Sabat in the sky....HEE HEE jeepers do not run from me as I have legs not to be used as wheels of cars to crush my own spirit...Just filling up the page...

I see the end of the papa who beats his children beyond the limits of the small God who wants not the heartache and pain...

Drop me a line soon...Lets get on a wave length that holds fast for the communication of MAGICK...

LOVE IS THE LAW

LOVE UNDER WILL

Special note of interest to who ever is interested in the work that is about ready to begin ...I AM about ready to start with a big'bang' that will shock the mundane characters of this on going story about this and that and the other thing...

I wrote this letter to you several months back , but I never sent it-- The resaon that I never sent it was that I each morning decided in my mind that you were not really interested in working with me ...Now I AM really un-able to believe that this is a true and valid fact ...So my wife has told me that I should send it to you as it does no good sitting here on my desk just starrng at me and causeing me for concern that there is no one on earth that I AM able to communicate with ...You see I have really gone bannanas and am no longer certain if it matters or not---But let me say this I AM in the position to do nothing for the rest of my TIME on this earth of yours...You notice that I have said

"This Earth of yours" You see I AM really what I have said all along An ALIEN , and this is why I AM unable to do the things that I want to do ...Each TIME that I get a human interested in a new way to change their consciouness they do so and then turn on me like I AM some kind of wierd NUT...But thats all/right , because you see I AM some kind of wierd nut & I AM only interested in the reponses that are manifested in the minds of the humans that I Am meeting in my visit to your small dinky planet ...Now I had hoped that you and I would be able to find a better way to inform our friends and students of the arts , that there is a better way to care for there soul/consciouness does need to be altered -one way or the other ...

You see this is only meant to incite laughter, and to show that we all , even us ALIENS that we must not take things to serious --as we are not going to get put of this life alive ant-way

Well Dear friend in OHIO I do pray that this finds you well and able to understand that IAM ready to help do some-thing great for man & his kind ..You may know what but I dont ...But you see I AM ready

THIS IS only a P.S. Dick

Do what thou wilt shall be the whole of the Law.

Good to receive your letter(4/7/82)and hoping that all is going well for you.

The Archives order form (which includes your mss)should be mailed out in the next 4 to 5 months. The Archives is shaping up as a great way in which to communicate with fellow occultists....the type of interchange that the Archives represents is a very important thing "for man and his kind"

Did not receive the pictures and newspaper articles sent several months back,...postal service can at times be very undependable. Will be sending you Archives listing upon printing.

Would,as allways, be happy th receive and share through the Archives any new mss from you.

Best of wishes,

Love is the law, love under will.

S. M. Ch. H. 353;associate of bate cabal
