Identify your thoughts (x) to be changed.

Establish transference with the part responsible for the thoughts (x) with me. "Will the part of me that are thoughts (x) communicate with me in consciousness". Establish the "yes-no" meaning of the signal.

Distinguish between the behaviour, thoughts x, and the intention of the part responsible. "Would you be willing to let me know in consciousness what you are trying to do for me by thoughts (x)"? When you get a "yes" response, ask the part to go ahead and transfer its intentions.

At the unconscious level the part of me that run's thoughts (x) communicates my intentions to your creative part, and selects from the alternatives that your creative part generates. Each time I select an alternative I give a "yes" signal.

"Are you willing to take responsibility for generating the new alternatives"?

"Is there any other part that objects to the alternatives"? If there is a "yes" response you will recycle and establish transference until your creative part becomes a magickal tool.

"The act of this ritual magick is the proof of my existence."

There is a power greater than yourself.
Be it ever known that you are in the knowledge of the Holy Guardian Angel.

Admit to the Holy Guardian Angel and yourself the exact nature of his magick over you. You are now and ever will be powerless over the Holy Guardian Angel's will.

"I will seek through my magick to improve conscious and continuous contact with my magickal child. My magickal child will ritually pray only for the knowledge of my will and the power of my magickal tool."

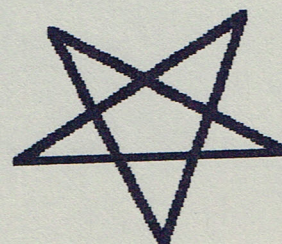

You will now completely turn all thoughts, of your self, over to the will of Holy Guardian Angel as you understand him. The Holy Guardian Angel will make a searching inventory for all defects connected to his magickal tool. "Will the part of me that are defects communicate with me in consciousness." Establish the "yes-no" meaning of the signal.

"Would you be willing to let me know in consciousness what you are trying to do for me with these defects?" When you get a "yes" response, ask the part to go ahead and transfer its intentions.

"I communicate my intentions to my magickal tool, and select from the new alternatives that it generates." Each time I select an alternative I give a "yes" signal. When ever there is a part that resists, I will transfer the defect into the knowledge and love of my magick. I will now continually make personal inventories for defects in my magick and continually renew my magick.

You will experience the rebirth of your self as the Holy Guardian Angels will. " I have been borne into the world through my magickal tool. You are my magickal child."

"I will consciously and unconsciously guide my child in all of its' affairs and my child will secretly support me in my magick."

Hello, I haven't talked to you in quite a while. Last time I sent a letter I sent you a piece of magick that I had just finished. I asked you if you would publish it for me, and you said you would.

You seemed to like it quite a lot. You said it was very 93. I'm not sure what that means, but from what I've seen in your publications I like it. 93 seems to be a particular type of magick?? However, I could not find it in the latest archives list. I hope you have published it.

I all so sent you a piece of work in progress. I'm real close to finishing it. I have sent you the main core of it. It is not for publishing yet and I do not want it published. I would like any comments you have though.

I plan to lead into the core of the spell with a generalized concept of what the magickal child will be and do. I will then lead the subject into a sex magick ritual much like my first spell with the core as the focus. I hope you like it.

I have sent ten dollars for this order. I know that it is more than needed. Please feel free to send me any thing else you like with the extra money.

Wold you please send me information on the bed and breakfast in New Orleans. I would like to get the address again and make some sort of arrangement to come.

Sincerely, John Whear

Dear Mishlen

Thank you very much for your letter. I hope you are feeling better. I have all ready received my order from you about a week earlier.

I understand that you have lost my earlier paper with the transference. The funny thing is that I do not have the complete paper, that I sent you, any more. All I have left of the paper is the transference section.

As I have progressed in this magick that I perform, I have had times that I felt that it was getting out of control. There has been several times in the past when I have thrown every thing I had out. However, I have always been pulled back into the magick. I tried to do this after I had been compelled to create the transference and the paper that I sent you. However, after several months I found my self trying to recreate the transference. I finally managed to retrieve the transference from my hard drive after I had deleted all of my magickal files. It was the only thing that I could recreate from the deleted files.

I have found that it is much easier now that I have created my second magickal writing to keep in touch with the magick. I use it all of the time. It is very easy to make room in my life for the magick by using this second writing.

Give me your address in New Orleans. It will make correspondence much faster. I will send you a remake of my first paper as soon as I finish it and feel it is complete.

I feel that I have been guided to this point in time by the magick I started four years ago. I feel compelled to make contact with other people to further strengthen the magick. This letter is a direct result of that magick.

Sincerely

J. H. Whean
